All information received will become part of the Project Files.

Project Summary

Guerra Development Corporation has been engaged by Marion County to study a 10.5-mile segment of SW/NW 80th/70th Avenue and will provide recommendations for future transportation improvements due to the surrounding growth and development of the area. This roadway serves the public as a collector, or main roadway, with direct access to On Top of the World/Stone Creek developments, West Port High School, agricultural and farming properties, residential and commercial properties, the World Equestrian Center, and Golden Ocala.

This study will evaluate preliminary roadway alignments, intersection improvements, alternatives, concept plans, environmental and cultural resources, transportation and drainage needs, with opportunity for public involvement and agency coordination.

The target typical roadway section will consist of a 120' Right-of-Way containing four traffic lanes, a grassed median, curb and gutter, turn lanes, bike lanes, and sidewalks.
