## SECTION IV. CRA FINANCIAL INFORMATION SUMMARY

The Silver Springs CRA Trust Fund received funding for Fiscal Year 2020-2021.

## VII. COMMUNITY REDEVELOPMENT PLAN (CRP)

The Marion County Community Redevelopment Agency (“Agency”), upon receipt of additional community input, revised the preliminary focus of the Silver Springs Community Redevelopment Area (SSCRA) to defer potential Agency capital improvements (e.g., gateway signage, street lighting improvements) and focus on community policing and initiating grant programs as incentives to rehabilitate properties and improve the visual appearance of the primary Silver Springs Boulevard and NE 58<sup>th</sup> Avenue corridors.

The Agency entered into a Special Detail Agreement with the Marion County Sheriff’s Office to provide a specialized detail to provide community policing services to provide an enhanced law enforcement presence to discourage criminal and illicit behaviors while creating an improved community presence and out-reach. This effort is undertaken consistent with CRP Goal 3.5.2.

### **3.5.2 Public Safety Collaboration**

*The establishment of the area’s public safety requires the active involvement of all stakeholders – property owners, tenants, resident and law enforcement. Establishing or expanding Neighborhood Watch, Business Watch or other innovative policing programs should be a collaborative effort supported by the CRA.*

The Agency established two grant programs: Façade & Building Improvement Grant and Security Improvement Grant. No applications were submitted for the Façade & Building Improvement Grant. Two Security Improvement Grant Applications were submitted and approved, final grant of the funds is pending close-out of the applications and the completion of all documentation and final clearance work at this time. These programs are undertaken consistent with CRP Goal 3.1.2.

### **3.1.2 Commercial Corridors Revitalization**

*With the continuing demise of the Silver Springs Park, the SR 40 corridor is experiencing substantial physical deterioration and economic loss. Recent reconstruction of Baseline Road (NE 58<sup>th</sup> Avenue) has improved access into the corridor. Specific initiatives recommended to enhance the corridor’s viability include:*

1. *Façade grant/loan programs,*

2. *Enhanced code enforcement,*
3. *Streetscape and street lighting upgrades,*
4. *Development and adoption of signage and urban design guidelines,*
5. *Review land use and permitting policies to support redevelopment opportunities,*
6. *Collaboration with property owners and tenants in establishing marketing, promotion, and public safety programs,*
7. *Assistance in land assembly if necessary to meet community objectives.*

The Agency established a grant Utility Connection Grant program with the 2020/2021 Fiscal Year. Three grant applications were submitted and approved, final grant of the funds is pending close-out of the applications as the associated projects are currently in design and permitting. The program was undertaken consistent with CRP Goal 3.2.

### ***3.2 Infrastructure and Utility Investments***

*Upgrading infrastructure and expanding utility services was identified as key elements to the area's improvement. Marked by the extensive use of septic tanks and privately-owned sewer package plants, the area's groundwater and nearby springs are at potential risk for continued degradation. Expansion of the wastewater system and the creation/upgrade of a stormwater management system are initiatives that will enhance existing property values and encourage potential new investment. Specific initiatives supported by the plan include:*

1. *Collaboration with Marion County's utility system to expand wastewater system*
2. *Support through financial incentives for individual utility connections to residences and businesses,*
3. *Development of an area-wide stormwater management system,*
4. *Support the creation of area-wide storm inlets as part of any new road construction,*
5. *Support and encourage the establishment of a street lighting district for the installation of new street lights as part of an overall roadway improvements program.*
