Jarrod Peltz – Marion County office of County Engineering

REPORTS:

Sherry Sloan, General Services Maintenance Supervisor

Sherry Sloan

She said that her crew completed weed eating and spraying. We now continue to pick up trash and trimming trees in mowing path. All maintenance on equipment is completed. Fixed transmission on JD 3 cost 15,000.00, and we have another one that needs to be repaired. Replaced hydraulic cylinders on JD 1. We took in roller and chipper, received \$7382.00 which we will transfer funds to repair and maintain equipment line item to help pay for JD 5 transmission.

We are taking 3 bush hogs and a trailer to Week's auction to help add money to the, maintain and repair equipment line item. The year bush hogs going in are 2009 and 2011. Lifetime for bush hogs with county is 5 years and we stretched to 12 to 14 years. The budget needs to be raised, I have saved and saved until now my equipment is old and breaking down and I have no funds.

Henry Munoz

Proposing to increase assessment from 30.00 to 70.00 and Virginia motioned first and Elady motion 2nd and approved, and he knows he needs to have ordinance approved through county for this to happen. It would do no good to raise it to 50.00, it would not be enough to cover expenses. Henry also said we needed 2 or 3 applications for the board, to contact Dave Pierce at the community center for the form.
