

Florida Gardening 101

What you'll learn:

Monday, Sept. 22

Building Your Soil: Tips to begin the transformation of your soil from sand to soil that is rich in nutrients and holds moisture to grow health plants.

Composting: Tips for transforming your yard and kitchen waste into rich soil.

Tuesday, Sept. 23

Florida Friendly Landscaping: Learn the nine principles to gardening in Florida.

Water Conservation: Learn how to install a micro-irrigation system.

Wednesday, Sept. 24

Landscape Design: Learn how to design a Florida Friendly Landscape.

Lawns: Tips to establish and maintain your Florida lawn.

Thursday, Sept. 25

Trees and Shrubs for Central Florida: Learn about trees and shrubs that thrive in our Central Florida environment.

Annuals and Perennials: Drought tolerant and native beauties for your landscape.

Friday, Sept. 26

Vegetable Gardening: Practical information on growing vegetables successfully.

Pests in the Home Landscape: Tips to get the upper hand on common insects, diseases and weeds.

For those new to gardening or just new to gardening in central Florida, this class will teach the basics to help you be successful at growing just about every kind of plant.

September 22-26, 2014.
