

The Forest Community & Business Coalition proudly presents...

Biologists from the Florida Fish and Wildlife Conservation Commission on Thursday, Sept. 18 at 9 a.m.

You have questions about coyotes, deer and bears, and they have answers! Find out the truth about bear relocation, how to defend against coyotes, how to deal with raccoons, what you can do about nuisance neighbors who attract bears, the best deterrents and more!

Coyotes

They will eat nearly anything, even your pet!

Deer

Because they are herbivores, they may eat your garden before you do!

Bears

The Florida Black Bear's population is expanding, so you are likely to encounter one in the Forest!
