

Florida Gardening 101

What you'll learn:

Monday, Feb. 2

Building Your Soil: Learn how to transform your sandy soil into “gardener’s gold.”

Florida-Friendly Landscaping: Learn the nine principles to gardening successfully in Florida.

Tuesday, Feb. 3

Plant Propagation: Learn how to make your own plants.

Gardening for Birds and Butterflies: Selection and care of plants to attract wildlife to your garden.

Wednesday, Feb. 4

Lawns: Learn the characteristics, installation, and maintenance of the main grass types grown in Central Florida.

Pruning Trees and Shrubs: Learn how and when to correctly prune.

Thursday, Feb. 5

Vegetable Gardening: Practical information on growing a productive vegetable garden.

Gardening in Small Spaces: Ideas for gardening successfully in small spaces.

Friday, Feb. 6

Must-Have Plants for Marion County: Plants that thrive in Marion County gardens.

Pests in the Florida Garden: Learn how to identify and control insects, diseases, and weeds commonly encountered in Florida gardens.

For those new to gardening or just new to gardening in central Florida, this class will teach the basics to help you be successful at growing just about every kind of plant.
